

include/mylib/SubclassExample.h

```
graph TD; A[include/mylib/SubclassExample.h] --> B[Example.h]; A --> C[iostream]; A --> D[string]; B --> D;
```

The diagram illustrates the include relationships for the file `include/mylib/SubclassExample.h`. It is shown in a grey box at the top. Three blue arrows originate from its bottom edge: one points straight down to `Example.h` (white box), one points down and to the right to `iostream` (grey box), and one points down and to the left to `string` (grey box). Additionally, a blue arrow points from `Example.h` down to `string`.
